

Tubex Ecovine

The **Tubex Ecovine** has become one of the most popular Tubex vine shelters. This product offers an economical solution to vine growth enhancement and protection.

The **Tubex Ecovine** provides an improved growing environment resulting in stronger early growth, higher survival rates and a stronger leader with fewer side shoots. The **Tubex Ecovine** also provides protection against animal browsing, accidental herbicide drift and mechanical weeding.

The **Tubex Ecovine** has become a popular and economical solution to vine establishment. The **Tubex Ecovine** is often re-used.

Hints and tips

- ▶ Soil should be mounded up at the base of the shelter to provide stability and to prevent upward air flow
- ▶ For larger leaved vines or higher trellising consider using **Tubex Vine Original**
- ▶ Consider re-use for even greater economy
- ▶ Visit www.tubex.com for advice on choice and use of Tubex products.

Quick specifications

- ▶ Heights 0.4m or 0.55m
- ▶ Diameters 71mm to 86mm
- ▶ Nests 4 tubex
- ▶ Bundles 120 tubex
- ▶ Colour Tubex Green

Tubex 
Advancing growth

Tubex Ecovine with twin-wall tubular construction, manufactured from environmentally harmless polypropylene, with anti-abrasion flared rim.

Material composition

- ▶ UV stabilised polypropylene, harmless to the environment

Standard sizes

- ▶ Heights: 0.4m or 0.55m
- ▶ Diameters: 71mm to 86mm, nested in 4 diameters to facilitate transportation and storage

Colours

- ▶ Specially blended Tubex green

Special Features

- ▶ Flared rim to minimise stem abrasion
- ▶ Solid barrier for complete protection against animals, herbicide and maintenance operations

Durability

- ▶ Durable twin-wall construction for high strength / low weight ratio - making the shelter easy to handle
- ▶ UV stabilised for up to 3 years of life (can vary depending upon site conditions)

Applications

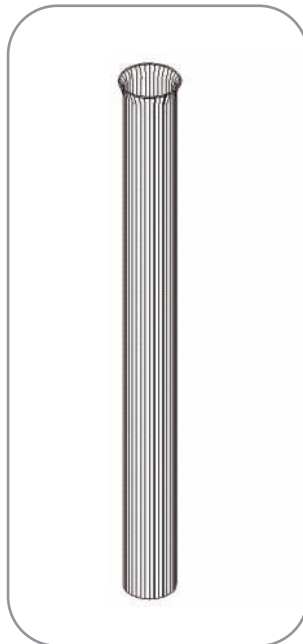

- ▶ Suitable for most types of vines and site conditions
- ▶ Economy solution for larger plantation projects

Features

Flared rim to help reduce abrasion

Twin-wall tubular construction

Made from environmentally acceptable polypropylene
