

Tubex Jumpstart

The **Tubex Jumpstart** is the best openable vine shelter on the market, providing both key vine shelter benefits: Improved growth and Protection. The shelter is made from a flexible material (polyethylene) that allows easy access to the vine for bud rubbing and inspection without having to remove or lift the shelter.

The twin walled tubular shelter shields the young vine from herbicides, as well as offering protection from mechanised weeding and animal browsing.

The **Tubex Jumpstart** provides an improved growing environment resulting in stronger early growth with higher survival rates, a strong leader shoot and fewer side shoots.

Hints and tips

- ▶ Use a well-driven quality cane or metal rod inserted through the Jumpstart holes
- ▶ Can be stapled together for easy installation
- ▶ One of the best options if speedy plant inspection is required
- ▶ Visit www.tubex.com for advice on choice and use of Tubex products.

Quick specifications

- ▶ Heights 0.6m, 0.75m or 0.9m
- ▶ Diameters 90mm
- ▶ Nests 10 Tubex
- ▶ Bundles 100 Tubex per bag
- ▶ Colour Translucent green or pink

Tubex 
Advancing growth

Tubex Jumpstart with twin-wall tubular construction, manufactured from environmentally harmless polyethylene, with side opening allowing easy access to the vine.

Material composition

- ▶ Virgin polyethylene, harmless to the environment

Standard sizes

- ▶ Heights: 0.6m, 0.75m & 0.9m (tolerance: + 0-25mm)
- ▶ Diameters: 90mm

Colours

- ▶ Translucent green or pink

Special Features

- ▶ Large diameter - allows full leaf expansion
- ▶ Side opening - for vine inspection

Durability

- ▶ UV stabilised to provide an estimated life of 5 years (can vary depending on site conditions)
- ▶ Durable twin-wall construction for the best possible strength-to-weight ratio
- ▶ May be re-used

Applications

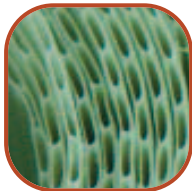

- ▶ Suitable for a wide range of vine planting stock and most site conditions to provide improved growth and survival rates and reliable browsing and herbicide protection.
- ▶ Use where access to plant seedling is required
