

# Standard Range

The world's best known and best selling treeshelter. TUBEX Standard incorporates all the tried and tested TUBEX features to provide enhanced growth and reliable plant protection.

TUBEX Standard is designed to last a minimum of 5 years\*, boosting the chances of survival and healthy growth through the early stages of the tree's life. TUBEX Standards are quick and easy to install, provide a microclimate which aids strong root and stem growth, allowing planting of smaller, cheaper trees.

For bigger planting jobs, TUBEX Standard Plus in a wider diameter than the normal standard, gives more space for larger species to grow. For more exposed site conditions, consider TUBEX Combitube.

\*shelter longevity is dependent on site and weather conditions but is typically 7 years plus.
