

Vine Original

Our premier product for viticulture, the TUBEX Vine Original creates an improved growing environment giving uniform growth whilst providing reliable plant protection for the wider leafed vines.

TUBEX Vine Original is designed to last a minimum of 5 years*, boosting the chances of survival and healthy growth through the early stages of the tree's life. TUBEX Vine Original are quick and easy to install, provide a microclimate which aids strong root and stem growth, allowing the use of smaller, cheaper plants.

*Vineshelter longevity is dependent on site and weather conditions but is typically 5-7 years

PRODUCTS	VINE ORIGINAL
Heights (m)	0.4, 0.5, 0.6, 0.9
Diameter (mm)	90 - 110
Nest	5
Bundles	60
Colour	Green
Ties	N/A
Support	Fix to bottom trellis wire or cane

- Shelter longevity is dependent on site and weather conditions and can vary considerably.

Overview of Vineshelters

TUBEX vineshelters have been specially designed to provide the right solution for your planting needs. Over the years we have developed unique features that all contribute to the effective establishment of vines and fruit trees.

Features of vineshelters:

 <p>Laserline, designed to split avoiding strangulation as plant grows</p>	 <p>Nested for ease of transport and storage, whilst maintaining original shape</p>	 <p>Flared rim to minimise stem abrasion</p>
 <p>Pre fitted thumb releasable ties for quick, easy installation and maintenance</p>	 <p>Twin wall construction for rigidity and best strength to weight ratio</p>	 <p>UV stabilised polypropylene to provide minimum 2 year protection</p>
 <p>Top holes, allows attachment to trellis wire</p>	 <p>Wrap splits vertically, expanding as tree grows</p>	 <p>Strengthening rods at stake area to prevent tearing of the vineshelter</p>

Features of mesh range:

 <p>Pre fitted thumb releasable ties for quick, easy installation and maintenance</p>	 <p>UV stabilised and made from recycled plastic to provide minimum 7 year protection</p>	 <p>Flared rim to minimise stem abrasion</p>
 <p>Nested for ease of transport and storage, whilst maintaining original shape</p>	 <p>Weld line and flared rim splits avoiding strangulation as plant grows</p>	

- Shelter longevity is dependent on site and weather conditions and can vary considerably.
